Anne/David,

According to the email chain below there appears to be an Administrators briefing sometime today on Illinois River. OW (Tom Wall) is asking for the most updated summary report. Before I send it to OW, I wish to get the okay from you. Please note, the attached document is what you recently sent me indicating it included input from both states. Since then we made a factual correction clarifying the listed impaired waters (on Illinois river) reside on the Oklahoma side. Let me know if I can forward to Tom Wall.

Hi Crystal- this is first time I've heard that this meeting is today (had heard there would be one but didn't know it was scheduled for today). We'll reach out to the Region. -TomW
